Re: Changes in Tax Credit

To Tax Payers:

This letter is being sent to all tax payers in an effort to decrease the tax burden of citizens who work and pay taxes to other municipalities in addition to the City of Van Wert. The City Council and Administration are proposing to increase the allowable tax credit for taxes paid to another municipality from 25% of taxes paid to 50%.

This proposed legislation is contingent upon the passage of the .28% tax increase currently on the ballot this November. Should this pass the change in tax credit would be retroactively effective to January 1, 2017 and result in a decrease in your tax burden for the 2017 tax year.

Please get out and vote.

Sincerely,

Rudolph D Grant
Tax Administrator
